High Throughput Threat Detection X-ray Scanner

THE NEXT-GENERATION
SECURITY SCREENING

- Automated
- High-Speed
- Compact
- Dual View

- S** **SMART SCANNING**
Places the burden of analysis on the equipment, not the operator
- T** **TRUSTED RESULTS**
Superior detection with low false alarms
- R** **RELIABLE OPERATIONS**
Robust design that is easy to operate
- E** **EVOLVING DETECTION LIBRARY**
Guns, knives, flares & fireworks, vapes & e-cigarettes
- A** **ARTIFICIAL INTELLIGENCE**
Sophisticated AI-powered algorithms
- M** **MODIFIED AESTHETICS**
Available in a variety of colors and graphics

Capable of processing 1500+ bags per hour the system ensures high throughput without compromising security.

The AI algorithms precisely detect and sort suspected bags automatically, providing comprehensive threat detection for various types of weapons, as well as suspicious high mass objects (potential IEDs), and other prohibited items.

Designed for easy installation and mobility, this system adapts seamlessly to high-traffic venues, stadiums, buildings, schools, museums and other public spaces.

This system is designed to be easy to use and cost effective to operate. No extensive training or time-consuming image analysis is required, allowing operators to start using the system immediately.

ONE SOLUTION MANY ENVIRONMENTS

Upgrade your security framework by leveraging the latest in AI and X-Ray technology. Embrace the innovations that enable high-speed, accurate inspections, ensuring comprehensive protection.

Every scan is a testament to your commitment to safety and progress. Welcome to a new era where security is seamlessly integrated into everyday operations, providing unmatched assurance and peace of mind for all visitors and staff.
